WORKING EXPERIENCE

- Date From 01/02/2018 he was hired at the "Prof. Dott Luigi Cobellis" nursing home in Vallo della Lucania as manager, responsible for the Senology Surgery service.

From 01.11.2017 he his I level Medical Director with professional assignment of high specialization in Senology Surgery at the "Luigi Vanvitelli" University of Naples.

In 01/01/1998 he was hired by the II University of Naples as an official technical employed in care services for three years and from 01/01/2001 indefinitely (category EP1).

From 1982 he attended the VI Division of General and Geriatric Surgery of the Naples University, as an intern until 27/07/1983, as a medical practican until March 1984, as a professional external collaborator from April 1984 to December 1997.

From 08/01/1993 to 31/12/1997 he held the outpatient office, Branch of General Surgery, for a total of 20 hours a week at the ASL / ASL SA1 and / SA2.

In October 1993 he received his degree in Endocrine Surgery at the II Medical Faculty of Naples (Dir. Prof. L. Zarrilli) with 70/70.

In 1988 the doctor Santoriello specialized in general surgery at the Medical Faculty of Naples (Dir. Prof. A. Lanzara) with 70/70 and praise.

On 07/27/1983 he received the degree in Medicine and Surgery with 110/110 at the Medical Faculty of the University of Naples.

Since 1983 he works at the Department of General and Special Surgery, intended as ward and the operating room services, as an assistant, first aid and operator.

In recent years he has largely used surgery techniques in day-hospital with regional anesthesia operating many patients with obvious cost reductions. Since 1986 he is responsible of the surgery Ultrasound Internistics and interventistics services activated in this Division. In this regard, he graduated in Ultrasound Internistics at the Institute of Radiology of the University of Modena in 1985.

He also took part in 1986 in the semestral course of ultrasound in the diagnosis of liver and biliary diseases held at the Cotugno Hospital in Naples. With this method, he has contributed to the solution of many diagnostic issues and performed alcoholization with ultrasound-guided percutaneous technique several diseases, malign

(hepatocellular carcinoma) and benign (toxic adenoma of the thyroid), unsuitable for other solution. Since 1988 he is also responsible for the surgical Endocrine office activated at the VI Division and is responsible in particular for thyroid and breast disease, contributing to the execution of proper treatment protocols. The doctor Santoriello has also completed a quarterly internship in Hepatobiliary Surgery at the Paul Brousse Hospital in Paris directed by Prof. H. Bismuth in 1988.

For over 10 years he has been using the new diagnosis and treatment technologies for breast disease (sentinel node, ROLL) and has been treating several patients with hepatocellular carcinoma with radio equipment.

Since January 2011 he is the referent for the south-central Italian area of the international experimental study on the role of electrochemotherapy in the treatment of malignant breast tumors.

Since May 2014 he is a National Councilor and South Italy Responsible for the Italian Society of Ambulatory and Day Surgery (SICADS).

Since June 2014 he is responsible for the National Association of Campania breast surgeons (ANISC)
